Business Opportunity

Introducing the attractive 'FLUFFL' candy fl
(cotton candy) container.

'FLUFFL' is our unique, attractive way of sto
displaying (and eating) candyfloss!

The 'FLUFFL' is a semi-rigid container with a
sealable lid that promotes and displays you
floss very attractively and effectively, while
maximizing its shelf life.

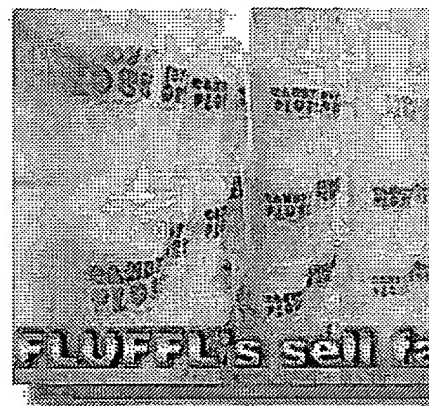

'FLUFFL' candy floss containers are:

- Smart and attractive
- The floss is longer lasting
- The containers are easy to fill (150-200 FLUFFL's per hour)
- They are easier to store and transport

So, now, for a truly minimal outlay (from just £90!) as well as selling candy
from our new containers at retail prices, you can also go 'wholesale' - yes! -
opens a whole new business for you! A true wholesale fun food business with
minimum of extra expense but masses of extra cash profit?

Now you can cater to a virtually
untapped, 'very hungry' market. This
includes ice-cream vans owners, schools,
cinemas, tourist attractions, promotions,
parks, party organizers etc etc. The list is
endless!

A brief story - we put 100 of our new
custom-made 'FLUFFL' candyfloss
containers pre-filled with candy floss in a
local shop. This created what can only be
called a stunning display that really
attracted shoppers. It did all the selling!
For this test we priced them at just 65p
each (we would normally suggest selling
them from 65p-£2). We held our breath....

Even we were surprised... incredibly, by the end of the day, these were all so
initially gave them to the shop free to test how well these would sell. Needle
these are now purchased eagerly by the shop owner).

We are delighted to bring you this unique cost-effective opportunity to have manufacturing business, with customers that will be 'begging for more'.

Lets look at some costings... (Yes, the maths really 'does add up'). Including FLUFFL container, the sugar and colouring dye, your cost per unit can be as 16p each. In a little over three hours you produce 500 'FLUFFL' units ready f 2Kg bag of sugar costs under a pound and will fill around 100 FLUFFL's. We suggest a retail unit price of 75p - £2.00p. The profit for 500 units wholesali 35p will bring you a profit of £95.00. (Imagine if you were wholesaling 1000 day to local confectioners, food shops etc?)

And if you were to retail the 500 units yourself, this would bring you in as m £920.00

Finally, we are also able to supply a limited amount of ready filled FLUFFL's may be more convenient for you. And it is an ideal way for you to 'test the m

Candyfloss **Wholesale Business**

The Candy Floss Manufacturing Unit - New!

We are pleased to offer you a unique opportunity to get into the wholesale candy floss business.

The unique combination of the CandyFloss Manufacturing Unit together with our exclusive FLUFFL containers, lets you make large numbers of candy floss containers ready for you to wholesale out to local shops etc.

The CandyFloss Manufacturing unit consists:

- one industrial quality Candy Floss Machine.
- One industrial quality custom-made workbench.
- 1500 FLUFFL pots to get you started
- Ten pots of powdered candy floss colouring.

TOTAL PRICE £1995.00 inc delivery (uk mainland) and vat

Your Candy Floss Manufacturing Unit will enable you to make and fill 150-200 FLUFFL candy floss pots in an hour.

Imagine - if you make just 500 FLUFFL's a day and wholesaled them out at just £0.35p each - this would make you up to £90.00 per day cash profit.

Imagine of you made and sold 1000 units per day - (thats just 10 customers buying 100 each)

Typical customers would be

- sweet shops
- video shops
- schools
- boot sales
- market stalls
- ice cream vans
- cinemas

- tourist sites
- parties
- promotions
